**Physical Education**

Micheal C Doogan

General regulations for Schools and Classes operating under the Authority of the City of Dublin Vocational Education Committee are displayed in the Entrance Hall. All students are subject to these regulations.

### Whole-time Courses

Students are admitted at the commencement of the session in September. Applications for admission should be submitted as soon as possible, preferably before the 1st June, on the form obtainable from the Secretary. Candidates awaiting results of examinations may make provisional application. Qualified applicants will be called for interview in September, and may be required to take an entrance examination. Documentary evidence of qualifications should accompany all applications.

### Technician Courses

Admission is confined to candidates who have attained such a standard of general education as will enable them follow all the subjects of their course. Details of special entrance requirements are shown in the relevant sections of this prospectus. Application requirements are similar to those for whole-time professional courses.

### Trade Courses

These classes are provided for the sole purpose of supplementing the practical trade training of persons actually employed at and engaged in the various operations of the trade. The College Council realises that it is impossible for a person to learn a trade solely by attendance at these classes and is further of the opinion that the admission to the classes of persons not actually engaged in the trades would be not only of little use to such persons but would prejudicially affect the instruction of those for whom the classes have been organised. Accordingly, the College Council

reserves the right to restrict enrolment in the trade practical classes to those persons who are actually employed in the several processes and operations of the trade. For admission to these classes proof of actual employment in the several processes and operations of the trade will be certificates to that effect from the Masters' Associations and/or the official Trades Unions of the trade concerned.

**Applications from Foreign Students** must be accompanied by a letter of recommendation from the diplomatic representative of his country in Ireland or where there is no such representative, from the Ministry of Education in his country.

### Attendance

The Vocational Education Committee may exclude any student from the College without refund of fees for irregular or unpunctual attendance or misconduct, or for any other reason which in the opinion of the College Council justifies exclusion. Three successive absences in any one class subject may lead to suspension from the complete course unless the Principal is informed in writing of the reason.

### Changes in Class

The Vocational Education Committee may change any or all of the syllabus, the day and time of meeting of any class and may cancel classes where the enrolment or attendance is considered inadequate. If for some urgent reason a teacher cannot attend or arrange for a deputy, classes may be cancelled without notice.

### Change of Address

Change of address or place of employment should be reported to the Office immediately.

### Change of Classes

No exchange of classes may be made without the consent of the Head of Department.

### Loss of, or Damage to Personal Property

Whilst every reasonable precaution is taken, the College cannot accept responsibility for damage to or loss of students' property. Bicycles and motorised cycles brought to the College premises by students should be locked and placed in the storage spaces provided. Coats, books, etc., should be clearly marked with the owner's name.

### Damage to Equipment and Premises

The cost of the repair or replacement of College property damaged by a student shall on demand be paid to the College Authority by the student responsible for such damage.

### Sessional Examinations

Examinations are held at the end of Session, no student shall be admitted to the Examinations who has not made at least three-fourths of the possible attendance except in special circumstances and at the discretion of the Head of Department. Promotion to a Higher Stage of instruction in any subject is contingent on passing the Sessional Examination in the Lower Grade.

### Homework

Students are required to submit regularly such homework as may be prescribed by members of the teaching staff.

### Laboratory Record

An Experimental Record Book is required to be maintained by each student of a Laboratory Class: an assessment shall be made at the end of Session of each student's progress in Laboratory Techniques and experimental ability which will count in the Sessional Examination in that subject.

### Discipline

Any member of the teaching staff issuing a directive to any student misconducting himself on the College premises is authorised to enforce disciplinary measures, and the Principal may immediately suspend the student(s) pending a hearing of the charges by the College Council. Students must enter and leave the College buildings in a quiet and orderly manner, and must refrain from making unnecessary noise in corridors or classrooms. The full co-operation of each student is invited in order to maintain the dignity and discipline of the College.

### General Information

Day Classes will normally be held from 9 a.m. to 12.30 p.m. and 2 p.m. to 5 p.m. each week-day except Saturday unless special arrangements are made in specific cases. Evening Classes will normally be held from 7 p.m. to 10 p.m. except where shown otherwise. Office Hours: 9 a.m. to 12.30 p.m. and 2 p.m. to 5 p.m. Monday to Friday, and at special periods of the year at times which will be posted on the Notice Board. Except during enrolment periods members

of the teaching staff will not be available for interviews except by prior appointment.

#### Fees

Fees are payable on enrolment and no student will be permitted to attend any class until the proper fees have been paid. Guarantees may be accepted from local authorities, educational establishments or employers.

Fees will not be refunded except where a course does not form or where a student, with the consent of the Head of his department, withdraws his application before the commencement of the course.

The sessional fees are shown under the headings for the various courses.

#### Examinations

Closing dates and fees for examinations conducted by the Department of Education, the City and Guilds of London Institute and other bodies are displayed on the College Notice Board as they occur.

An entrance fee of 2 guineas is payable in respect of the First, Second and Third Year Examinations in Architecture. A candidate may be permitted to sit for one supplementary examination without payment of a further fee.

#### Library

Students attending full-time and part-time day courses have access to the College Library. By arrangement with the Corporation of Dublin, the College Librarian can obtain from any of the public libraries in Dublin any special reference book or

text book required by a student.

The removal of books or journals from the Library is not permitted.

#### Refectory

The students' Refectory is open throughout the session for lunches, teas and morning and afternoon teas and coffee.

#### Courses Provided

##### Technological and Technician Courses (day)

#### 1. Technological+Technician Courses (day)

##### Architecture, Surveying and Building

D/1 Architecture. Whole-time.

D/2B. Higher Building.

Whole-time. Technicians' Certificate.

D/3B. Diploma Course in Environmental Economics (Progressively supersedes courses in General Surveying). Whole-time.

D/4B. Diploma Course in Construction Economics (Progressively supersedes courses in Building Technology & Quantity Surveying). Whole-time.

D/4C. Course for Building Technicians' (progressively supersedes Part-time course in Quantity Surveying). Part-time.

D/6. Town and Country Planning. Part-time.

D/7. Health Inspectors' Diploma Course. Sandwich.

D/8. Architectural Technicians. Whole-time.

**Engineering**  
D/40 Pre-professional Course in Engineering. Whole-time.

D/41. Preliminary Engineering. Whole-time.

D/42. Diploma Course in Mechanical & Production Engineering. Part-time.

D/42C. Mechanical Engineering Technicians' Course. Part-time.

D/43. Engineering Draughtsmanship. 1st Year Whole-time, 2nd & 3rd Year Part-time.

D/44. Automobile Engineering Technicians. Sandwich.

D/45. Aircraft Technicians' Course. Sandwich.

D/46. Engineering Apprentices' Courses. A. Sandwich; B. Part-time Sandwich.

D/47. Trainee Draughtsmen. Sandwich.

D/152. Heating and Ventilating Technicians. Part-time.

D/170. Motor Vehicle Technicians. Part-time.

#### Technological and Technician Courses (evening)

#### Printing+Graphic Design

D/81. Printing Technology. Part-time.

D/82. Training for Administrative Staff. Part-time.

D/86. Graphic Design. Part-time.

#### 2. Technological & Technical Courses (evening)

##### Architecture, Surveying and Building

E/1B. Course for Building Technicians (progressively supersedes course in Building Technology).

E/2. Land-surveying and Levelling.

E/3. Timber Technology.

##### Engineering

E/40. General Certificate in Education.

E/41. Graduate Courses in Engineering.

E/42. Certificate Engineering Technicians' Course.

E/43. Engineering Draughtsmanship.

E/44A. Mechanical Engineering Technicians' Course.

E/44B. Jig & Tool Design Technology.

E/46. Aeronautical Engineering Technicians.

E/47. Diesel Maintenance.

E/48. Welding Technicians' Course.

E/49. Automobile Engineering.

##### Printing

E/81. Printing Technology.

E/82. Training for Administrative Staff.

E/83. Applied Printing.

E/84. Costing and Estimating.

E/85. Paper Technology and Marketing.

E/86. Typographic Design and Layout.

E/89. Basic Diploma Course in Advertising.

E/90. Diploma Course in Advertising.

##### Short Courses

Each session, short courses are held consisting, usually, of eight to twelve lectures

relating to special aspects of Building, Engineering or Printing Technology. Details of these short courses are advertised in the daily newspapers.

### 3. Trade Courses (day)

#### Architecture, Surveying and Building

- D/101. Bricklaying. Part-time.
- D/102. Furniture Trades. Part-time.
- D/103. Carpentry and Joinery. Part-time.
- D/104. Coachpainting. Part-time.
- D/105. Painting and Decorating. Part-time.
- D/106. Plumbing. Part-time.
- D/107. Vehicle Building. Part-time.
- D/108. Woodcutting Machinists' Work. Part-time.
- D/109. Vehicle Trimming.

#### Engineering

- D/141. Fitting and Turning. Part-time.
- D/142. Motor Mechanics' Work (A & B) Part-time.
- D/143. Gas & Electric Welding. Part-time.
- D/149. Metalplate Work. Part-time.
- D/151. Heating and Ventilating Engineering Craft Practice. Part-time.
- D/168. Motor Vehicle Mechanics (City & Guilds). Part-time.
- D/169. Motor Vehicle Electricians. Part-time.

#### Printing

- D/181. Bookbinding. Part-time.
- D/182. Compositors' Work. Part-time.
- D/183. Letterpress Machine Work. Part-time.
- D/184. Process Engraving. Part-time.
- D/185. Linotype, Intertype and Teletypesetting. A. Whole-time; B. Part-time.
- D/188. Stereotyping and Electrotyping. Part-time.
- D/190. Compositors' Work. Block Release.

### Physical Education

- D/191. Bookbinding and Warehouse Work. Block Release.
- D/192. Lithography and Photo-Lithography. Block Release.

### 4. Trade Courses (evening)

#### Architecture, Surveying and Building

- E/101. Bricklaying.
- E/102. Furniture Trades.
- E/103. Carpentry and Joinery.
- E/104. Coachpainting.
- E/105. Painting and Decorating.
- E/106. Plumbing.
- E/107. Vehicle Building.
- E/108. Woodcutting Machinists' Work.
- E/110. Plastering.

#### Engineering

- E/141. Fitting and Turning.
- E/142. Motor Mechanics' Work.
- E/143. Gas and Electric Welding.
- E/144. Patternmaking.
- E/145. Foundry Work.
- E/146. Brassfinishing.
- E/147. Boilermaking.
- E/148. Smith and Art Ironwork.
- E/149. Metalplate Work.
- E/150. Structural Steelwork.

#### Printing

- E/181. Book Finishing and Book-Edge Gilding, Artistic Book Finishing.
- E/182. Compositors' Work.
- E/183. Letterpress Machine Work.
- E/185. Linotype, Intertype and Teletypesetting.
- E/186. Monotype Casting.
- E/187. Monotype Keyboard.
- E/192. Lithography and Photo-Lithography.

### 5. Physical Education

- E/201. Physical Education for Men.

A 5-year day course to bring students to the standard of the Final Examinations of the Royal Institute of Architects of Ireland

### Entrance Standard

The preliminary educational qualifications required for enrolment are as follows:—

1. (a) Matriculation of the National University of Ireland.
  - (b) Matriculation of London University.
  - (c) Matriculation of Queen's University, Belfast.
  - (d) An Examination exempting from any of the foregoing.
- (A candidate claiming exemption on this head shall submit written evidence of such exemption.)

The applicant shall have passed in the following subjects:

1. Mathematics.
  2. English.
  3. French, German, Italian or Spanish.
- And passed in at least two of the following subjects.
4. (a) One or more other Languages (including those listed under (3)).
  - (b) Physics.
  - (c) Chemistry.
  - (d) Mechanics (or Applied Mathematics or Mathematical Physics).
  - (e) History.
  - (f) Geography.

### Note:

Up to 1967, Irish will also be accepted under 3 above.

Candidates who have Matriculated on or before 1966 or who have passed a recognised qualifying examination as defined under 1 (a), (b), (c) or (d) may present an alternative set of subjects as follows:—

1. Mathematics.

### 2. English.

### 3. Irish or another Language.

4. Latin, Classic Greek, French, Italian, Spanish, German, Russian or Portuguese. And passed in at least one of the following subjects:—

5. (a) Physics.
- (b) Chemistry.
- (c) Mechanics, or Applied Mathematics or Mathematical Physics.
- (d) History.
- (e) Geography.

Subjects of Instruction are:—

### First Year

Studio Work; Building Construction and Materials; History of Architecture; Mathematics; Mechanics; Physics; Chemistry; Geometry.

### Second Year

Studio Work; Theory of Architecture; History of Architecture; Building Construction; Building Services I; Theory of Structures; Craftwork.

### Third Year

Studio Work; Theory of Architecture; Building Construction; Building Services II; Building Materials; Structural Engineering; Craftwork; Surveying and Levelling.

### Fourth Year

Studio Work; Theory of Architecture; Building Construction; Structural Engineering; Professional Practice (including Cost Controls and Site Management); Interior Design (including furniture design); Town Planning Theory (including Sociology); Economics.

**Fifth Year**

Studio Work; Structural Engineering; Professional Practice; Town Planning (Theory); Specifications and Materials.

Studio Work includes Architectural Drawing, Architectural Design, Building Construction, Drawing, Graphics and in the case of the First Year only, Geometrical Drawing, and in the case of the Fifth Year only Landscape Design.

Fee £50 per annum.

**D/2B. Higher Building Technicians' Certificate Course**

A pass level course leading to a Certificate in **Building Technology**. The course is of three years' duration and designed to prepare students for Licentiatehip of the Institute of Building and the Building Surveyors' Institute and Technician Membership of the Incorporated Association of Architects and Surveyors.

**Subjects :**

**First Year**

Mathematics; Science; Logic; History and Structure of the Building Industry; Principles of Accountancy; Functional Elements of Construction.

**Second Year**

Building Science; Building Construction and Services (Elements); Land Surveying and Setting Out (Elements); Site and Office Organisation; Works Study and Costing (Elements); Equipment and Safety Regulations.

**Third Year**

Principles of Structural Design; Building Construction and Services (Advanced); Building Law; Building Economics; Measurement and Price Build-up; Land Surveying and Setting Out (Advanced).

**Practical Experience:**

Students are required to gain Industrial and Professional experience during the extended summer vacations.

**Entry Qualifications :**

- (a) The Secondary Schools Leaving Certificate.
- (b) The Matriculation Certificate of a recognised University.
- (c) The General Certificate of Education.

Fee £40 per annum.

**D/3B. Diploma Course in Environmental Economics** (Progressively supersedes Course in General Surveying)

An honours level course leading to a Diploma in either **Estate Management** or **Town Planning**. The course is of four years' duration and designed to prepare students for Associateship of the Royal Institution of Chartered Surveyors.

**Subjects :**

**First Year**

Mathematics; Science; Logic; Human Organisation and Environment; Principles of Law; Mathematical Statistics; Principles of Accountancy; Economics; Functional Elements of Construction.

**Second Year**

Building Science; Building Construction and Services; Law of Contract; Law of Property (Elements); Planning and Compensation Law;

Land Surveying (Elements); Town and Country Planning (Elements); Valuations (Elements); National and Local Taxation (Elements).

**Third Year**

Design and Construction Economics; Economics of Land Use (Elements); Law of Obligations, Rights and Easements; Law of Property (Advanced); Land Surveying (Advanced); Town and Country Planning (Intermediate); Valuations (Intermediate); National and Local Taxation (Advanced); Estate Management (Elements).

**Fourth Year**

**Diploma in Estate Management**  
Estate Management (Advanced); Valuations (Advanced); Estate Development; Computer Applications; Arbitrations and Tribunals; Thesis on an Aspect of Estate Development.

**Diploma in Town Planning**

Town and Country Planning (Advanced); Economics of Land Use (Advanced); Estate Development; Computer Applications, Arbitration and Tribunals; Thesis on an aspect of the Economics of Land Use.

**Practical Experience**

Students are required to gain Industrial and Professional experience during the extended summer vacation.

**Entry Qualifications**

- (a) The Secondary Schools Leaving Certificate with a minimum of two subjects at honours level.
- (b) The Matriculation Certificate of a recognised University with six subjects at the

one sitting.

(c) The General Certificate of Education with a minimum of two subjects at Advanced level.

Fee £50 per annum.

**D/4B. Diploma Course in Construction Economics** (Progressively supersedes Courses in Building Technology and Quantity Surveying)

An honours level course leading to a diploma in either **Building Management** or **Quantity Surveying**. The course is of four years' duration and designed to prepare students for Associateship of the Royal Institution of Chartered Surveyors, The Institute of Building, The Building Surveyors' Institute, The Institute of Quantity Surveyors and the Incorporated Association of Architects and Surveyors.

**Subjects :**

**First Year**

Mathematics; Science; Logic; History and Structure of the Building Industry (Introductory); Principles of Law; Mathematical Statistics; Principles of Accountancy; Economics; Functional Elements of Construction.

**Second Year**

Building Science; Building Construction and Services (Elements); Law of Contract; Law of Property; Land Surveying and Setting Out (Elements); Site and Office Organisation; Works Study and Costing; Quantities (Elements); Structure of the Industry (Communications).

### Third Year

Principles of Structural Design; Building Construction and Services (Advanced); Law of Obligations, Rights and Easements; Land Surveying and Setting Out (Advanced); Project Planning and Network Analysis (Elements); Estimating (Elements); Quantities (Intermediate); Repair and Maintenance of Buildings; Structure of the Industry (Economical).

### Fourth Year

#### Diploma in Building Management

Principles and Practice of Management; Project Planning and Network Analysis (Advanced); Estimating (Advanced); Computer Applications; Arbitrations and Building Contracts; Thesis on an aspect of the Industry.

#### Diploma in Quantity Surveying

Quantities (Advanced); Cost Planning and Research; Economics of Building Construction and Development; Computer Applications; Arbitrations and Building Contracts; Thesis on an Aspect of Cost Research.

### Practical Experience

Students are required to gain Industrial and Professional experience during the extended summer vacations.

### Entry Qualifications

- (a) The Secondary Schools Leaving Certificate with a minimum of two subjects at honours level.
- (b) The Matriculation Certificate of a recognised University with six subjects at the one sitting.

(c) The General Certificate of Education with a minimum of two subjects at Advanced level.

Fee £50 per annum.

#### D/4C. Part-time Course for Building Technicians (Progressively supersedes Part-time Course in Quantity Surveying)

The course is of four years' duration with attendance on one whole day and two evenings each week and is designed to prepare students for the Advanced Technological Certificate examinations of the Department of Education and the Construction Technicians' Certificate Examination of the City & Guilds of London Institute (which leads to Technician Membership of the Institute of Building).

### Subjects:

#### First Year

Building Science; Building Construction and Services; Building Calculations; Principles of Structural Design.

#### Second Year

Building Science; Building Construction and Services; Building Calculations; Safety Regulations; Principles of Structural Design.

#### Third Year

Building Construction and Services; Measurement and Price Build-up; Land Surveying and Setting Out; Elements of Administration.

#### Fourth Year

Building Construction and Services; Measurement and Price Build-up; Land Surveying and Setting Out; Elements of Administration.

### Practical Experience

Students are required to be employed in the Building Industry.

### Entry Qualifications

- (a) The Secondary Schools Leaving Certificate.
  - (b) The Matriculation Certificate of a recognised University.
  - (c) The General Certificate of Education.
- Fee £25 per annum.

#### D/6. Town and Country Planning

This is a 3-year post graduate course to prepare students for the Final Examination of the Town Planning Institute. It involves part-time day and evening attendance.

### Entrance Standard

Students are required to have passed or to be eligible for exemption from the Intermediate Examination of the Town Planning Institute.

The subjects of instruction are as follows:—Town Planning Practice (Lecture & Studio Work), Historical Development of Planning, Outline of Social & Economic Organisation, Economics of Land Use, Law in Relation to Planning, Civil Engineering in Relation to Planning\*, and Architectural Landscape Design in Relation to Planning\*\*.

\*To be taken by architect students only.

\*\*To be taken by engineer students only.

Fee £50 per annum.

#### D/7. Diploma Course in Health Inspection

A course of four years' duration organised in consultation with the Department of Health and the Health Inspectors' Training

Board. The Department of Health is responsible for the selection and sponsoring of students.

### Subjects:

#### First Year

Mathematics; Biology; Micro-biology; Anatomy and Physiology; Chemistry; Physics; Building Construction and Draughtsmanship; Theory of Structures; Local Government Law and Administration; Elementary Hygiene and Introduction to Food Hygiene; Philosophy.

#### Second Year

Statistical Mathematics; Entomology and Parasitology; Micro-Biology; Food and Food Inspection; Chemistry and Physics; Offensive Trades and their Control; Building Construction and Draughtsmanship; Building Science; Public Health Law and Administration and Report Writing; Surveying and Levelling; Drainage and Sewerage; Water Supplies.

#### Third Year

Vital Statistics; Pest Control; Public Cleansing; Food and Food Inspection—Food and Drugs; Specifications, Quantities, Costing and Estimating; Atmospheric Pollution; Building Construction; Heating, Lighting and Ventilation; Public Health Law and Administration and Report Writing; Infectious Diseases and their control; Drainage and Sewerage; Water Supplies.

#### Fourth Year

Radiation, Health, Safety and Disposal, Radiation Hazards; Port and Airport Sanitation; Health Education; Food and Food Inspection; Inspection, Report Writing and

Office Administration; Atmospheric Pollution; Building Hygiene; Heating, Lighting and Ventilation; Public Health and Housing Law; Public Cleansing.

#### Practical Experience

Students spend six months of each year in the field.

#### Entry Qualifications

- (a) The Secondary Schools Leaving Certificate.
- (b) The Matriculation Certificate of a recognised University.
- (c) The General Certificate of Education.

Fee £50 per annum.

#### D/40. Pre-Professional Course in Engineering

This is a one-year Sandwich Course consisting of eight months' academic work commencing in mid-September, and three months' practical training in industry. Its purpose is to prepare suitable students for entry to the Diploma Courses in Mechanical and Production Engineering.

#### Entrance Requirements

- (a) Leaving Certificate of the Department of Education with honours in Mathematics, Physics, English and two other subjects;
- or (b) The General Certificate of Education at Ordinary Level in Additional Pure Mathematics, Physics, English Language, and two other subjects;
- or (c) Such other qualifications as the College may deem to be appropriate.

#### Course of Study

The subjects studied are :—  
German, Mathematics & Applied Maths,

Engineering Drawing, Experimental Physics, Chemistry, Philosophy, Practical Engineering and Tutorials.

#### Examinations and Other Requirements

Students are required to :—

- (a) Take the College examination at the end of the session.
- (b) Take the G.C.E. at Advanced Level in Mathematics, Physics. They may also take the "A" Level examination in Technical Drawing and Applied Mathematics.
- (c) Have a satisfactory attendance record in all subjects.
- (d) Present laboratory notebooks and year's work to the satisfaction of the examiners.
- (e) Complete the vacation training programme at the end of the year.

#### Membership of Professional Institutions

Students are strongly urged to apply to the appropriate Engineering Institution for Student Membership when they have satisfactorily completed this course.

Fee £35 per annum.

#### D/41. Preliminary Engineering Course

This is a one-year whole-time course commencing each year in mid-September. Its purpose is to prepare suitable students for entry to the Pre-Professional Course in Engineering or for positions as junior engineering technicians in industry.

#### Entrance Requirements :

- (a) Leaving Certificate of the Department of Education with passes in Mathematics, English, and three other subjects;
- or (b) have satisfactorily completed a recognised post-Intermediate (or Group Certificate) continuation course.

#### Course of Study :

The subjects studied are :

Applied Mathematics, Mathematics, English, Physics, Chemistry, Engineering Drawing, Workshop Practice, Social Science and Physical Education.

#### Examinations and Other Requirements

Students are required to

- (a) take the College examinations at the end of the session;
- (b) take the G.C.E. examinations at "O" Level in Additional Pure Mathematics, Physics, Chemistry, Technical Drawing and English Language.
- (c) have a satisfactory attendance record in all subjects;
- (d) present laboratory notebooks and year's work to the satisfaction of the College authorities.

Fee £15 per annum.

#### D/42A. Diploma Course in Mechanical and Production Engineering (1) Mechanical Engineering

This is a three-year sandwich course consisting of eight months' academic work each year commencing in mid-September, and three months' practical training in industry. The following schemes are in operation.

- (a) **College-Based Scheme.** Suitable students are enrolled by the College, which then directs their academic studies and assists in arranging vacation training each summer. Certain Local Authorities award scholarships which are applicable to this course and students should apply to their local body.

- (b) **Industry-Based Scheme.** Suitable students whose employers are prepared to sponsor them for the duration of the course may be admitted. Employers make their own arrangements with their students regarding the payment of fees, wages, books, etc. The practical training in industry is designed by the College in collaboration with the industrial sponsor.

#### Entrance Requirements to the First Year

- (a) Passes at Advanced Level in the General Certificate of Education examinations in Physics and Mathematics or Applied Mathematics, and
  - (b) Passes in English and two other subjects at G.C.E. Ordinary Level, or at Honours Level in the Leaving Certificate of the Department of Education, and
  - (c) A minimum of three months' approved practical training in industry;
  - or (d) Such other qualifications as the College may deem to be appropriate.
- The attention of students who do not meet these requirements is directed to the Pre-Professional Course (D/40).

#### Course of Study

The subjects studied are as follows :—

#### First Year

Mathematics, Principles of Electricity, Applied Mechanics and Hydraulics, Physics, Chemistry, Engineering Drawing, Fundamentals of Production, General Studies, Laboratory Work and Workshops, Tutorials.

### Second Year

Strength of Materials, Mechanics of Machines, Principles of Production, Thermodynamics, Fluid Mechanics, Electrotechnology and Controls, Civil Engineering, Mathematics and Statistics, Engineering Administration, Engineering Laboratories, General Studies and Tutorials.

### Final Year

Strength of Materials, Mechanics of Machines, Design for Production, Applied Thermodynamics and Hydraulic Machines, or Production Engineering, Electrotechnology and Controls, Mathematics and Statistics, Engineering Administration, Project, General Studies and Tutorials.

In the Final Year students are required to carry out an individual design or research project and to submit for examination a short thesis on the work performed.

### Examinations and Other Requirements

Students will not be permitted to advance to the next year of the course unless they have (a) satisfied the examination requirements; (b) have a satisfactory attendance record in each subject they are required to attend; (c) have presented Laboratory and Year's Work to the satisfaction of the examiners; (d) have satisfactorily completed the vacation training programme for the year. Students may also take the Joint Part I Examination of the Professional Engineering Institutions at the end of the First Year and the Part II examination of the Institution of Mechanical Engineers at the end of the Second or during the Final Year.

### Award of Diploma in Mechanical Engineering (Dip. Eng.)

At the completion of the course students who have been successful in the Final examination and who have satisfactorily completed their project will be eligible for the award of the Diploma in Mechanical Engineering provided they have passed or been exempt from the Part II (Graduateship) Examination of the Institution of Mechanical Engineers. Fee £50 per annum.

### (2) Production Engineering

This is a three-year sandwich course consisting of eight months' academic work each year commencing in mid-September, and three months' practical training in industry. The general scheme and entrance requirements are as in the Mechanical Engineering Diploma Course. In the Final Year students are required to take certain Production Options and the project will have a Production Engineering bias.

### Award of Diploma in Production Engineering (Dip. Eng.)

At the completion of the course students who have been successful in the Final Examination and who have satisfactorily completed their project will be eligible for the award of the Diploma in Production Engineering. Students holding this Diploma will be granted complete exemptions from the Part I, II and III requirements of the Institution of Production Engineers. Fee £50 per annum.

### Mechanical Engineering Part-time Day Course

#### D/42B. Mechanical Engineering Part-time Day Course

This is a four-year part-time day and evening course designed to meet the Studentship Part I and Part II examinations of the Institution of Mechanical Engineers and also the Mechanical Engineering Technological Certificate examinations of the Department of Education. Students attend on two days per week.

#### Entrance Requirements

Leaving Certificate standard or the Elementary Stage of the Department of Education examination in Mechanical Engineering.

#### Course of Study

##### First Year\*

Mathematics, Mechanics, Heat, Light & Sound, Electricity, General Studies.

##### First Year A

Mathematics, Mechanics, Physics.

##### Second Year

Mathematics, Mechanics, Heat, Light & Sound, Electricity.

##### Third and Fourth Years

Mechanics of Machines, Strength of Materials, Thermodynamics, Mechanics of Fluids.

\*Students may also be required to attend appropriate evening classes as directed.

#### Examinations and Other Requirements

Students may take the following examinations:—

##### At the end of the first year

G.C.E. "O" Levels and Intermediate Stage of Technological Certificate.

##### At the end of the first year "A"

Advanced Level G.C.E.

### Part-time Mechanical Engineering Technicians' Course

At the end of the second year Joint Part I examination and Advanced Stage of Technological Certificate.

#### At the end of the fourth year

Part II, I.Mech.E. examination or Higher Technological Certificate examination of the Department of Education.

Fee £15 per annum.

#### D/42C. Part-time Mechanical Engineering Technicians' Course

This is a part-time day course intended to prepare suitable students for the City & Guilds of London examinations for Mechanical Engineering Technicians (293). The course is to suit technicians engaged in the following types of employment:—

Jig & Tool Design, Engineering Production, Engineering Planning and Plant Engineering.

#### Entrance Requirements:

Leaving Certificate standard or the Elementary stage of the Department of Education examination in Mechanical Engineering.

#### Course of Study

##### First Year

Workshop Processes and Practice, Engineering Drawing and Materials, Engineering Science, Mathematics, General Studies together with a supplementary subject to suit special requirements.

##### Second and Third Years

Engineering Science, Mathematics, General Studies, Applied Technology and appropriate option.

##### Fourth Year

Applied Technology and one specialised subject selected from Jig and Tool Design,

Product Design, Engineering Production, Mechanical Engineering Inspection, Plant Engineering and others.

#### Examination and Other Requirements

At the end of the first year students take the Part I examination of the City & Guilds of London Institute No. 293, Part II at the end of the third year, and Part III at the end of the fourth year.

Fee £15 per annum.

#### D/43 Engineering Draughtsmanship Course

This is a three-year course (one year full-time and two years part-time) to prepare students for employment as trainee draughtsmen.

At the end of the first year successful students take up employment as trainees and their course of study in the 2nd and 3rd years will be related to their specialisation in Mechanical, Civil or Heating and Ventilating Engineering.

#### Entrance Requirements:

- (a) Leaving Certificate, Matriculation or equivalent standard or
- (b) have completed G.C.E. "O" Level Course.

#### Course of Study

The subjects studied are as follows:—

##### First Year (Full-time)

Mathematics, Mechanics, Applied Physics, Surveying, Draughtsmanship, General Studies, Workshop Theory and Practice, Tutorials, Philosophy, Physical Education,

##### Second and Third Years

Subjects selected from Mathematics, Mechanics, Mechanical Design, Civil Engineering, Heating and Hot Water Services.

During the Second and Third Years students will be required to attend classes on one day and two evenings per week.

#### Examination and Other Requirements

Students must pass an Intermediate examination at the end of the first year before being admitted to the second year. Students may take the Technological examinations of the Department of Education, the City and Guilds of London examinations for Mechanical Engineering Technicians (293) or the City and Guilds examination for Heating and Ventilating Engineering Draughtsmen (259).

Fee £15 per annum.

#### D/44 Automobile Engineering Course

This course is arranged to meet the examination requirements of the Institute of the Motor Industry (Inc.), The Institute of Road Transport Engineers, the Institute of Automobile Assessors, and The Society of Engineers (Inc.). Students attend the College for 32 hours per week for the period mid-September to April. The full course extends over three years.

During the summer recess students are required to obtain suitable employment in the Automobile Engineering Industry.

#### Entrance Requirements:

The entrance standard required is the Secondary Schools Leaving Certificate or an equivalent certificate.

#### Course of Study:

##### First Year

English, Mathematics, Heat and Heat Engines, Mechanics, Physics, Chemistry, Engineering Drawing, Electricity, Motor

Vehicle Technology—Theory, Motor Vehicle Technology—Practice, Garage and Motor Workshop Practice, Philosophy, Physical Education.

#### Second Year

English, Mathematics, Heat and Heat Engines, Mechanics, Physics, Engineering Drawing, Motor Vehicle Technology—Theory, Motor Vehicle Technology—Practice, Garage and Motor Workshop Practice, Philosophy, Physical Education, Principles of Management, Automobile Electricity.

#### Final Year

Mathematics, Heat and Heat Engines, Mechanics, Engineering Drawing, Motor Vehicle Technology—Theory, Motor Vehicle Technology—Practice, Garage and Motor Workshop Practice, Philosophy, Physical Education, Principles of Management, Machine Construction and Design, Workshop Administration and Organisation, Automobile Electricity.

#### Examination and Other Requirements

Students are required to

- (a) take the Section A examinations of the above Institutes at the end of the first year
- (b) take the Section B examinations at the end of the second year.

Fee £25 per annum.

#### D/45 Aircraft Technicians' Course

This course is a four-year sandwich course to train Aircraft Technicians for the I.C.A.O. Licensed Maintenance Engineers' Licences issued by the Department of Transport and Power. Students attend the College from September to May inclusive

and spend the remainder of the year in the Aircraft Industry.

#### Entrance Requirements

(a) Intermediate Certificate of the Department of Education with honours in Mathematics, Science, and one other subject and at least a pass in Art or Drawing and Irish or English; or

(b) Day Group Certificate of the Department of Education with passes in at least the following subjects: Mathematics, Woodwork or Metalwork, Irish or English, Mechanical Drawing, having secured a First Class Pass in Mathematics and Woodwork or Metalwork and one other subject, which need not necessarily be one of those listed above.

#### Course of Study

The subjects studied are as follows:—

##### First Year

French, English, Social Science, Physical Education, Physics, Mechanics, Mathematics, Drawing, Workshop Technology, Aero. Laboratory, Chemistry, Workshop Practice.

##### Second Year

French, English, Social Science, Physical Education, Mechanics, Mathematics, Drawing, Workshop Technology, Aero. Laboratory, Workshop Practice, Heat Engines.

##### Third Year

French, English, Social Science, Physical Education, Mechanics, Mathematics, Drawing, Workshop Technology, Aero. Laboratory, Workshop Practice, Heat Engines, Materials.

**Final Year**

French, English, Social Science, Physical Education, Mechanics, Mathematics, Drawing, Workshop Technology, Aero, Laboratory, Workshop Practice, Heat Engines, Materials.

**Examination and Other Requirements**

Students are required to pass examinations as follows:

- (a) At the end of the first year the Department of Education Junior Trade Group Certificates in Fitters' and Turners' Work and the Department of Education Elementary Stage Technological Examinations in Mechanical Engineering (Subjects: Mathematics, Heat, Mechanics, Machine Drawing and Workshop Technology).
- (b) At the end of the second year—the Department of Education Senior Trade Group Certificate in Fitters' Work and the Department of Education Intermediate Stage Technological Examinations in Mechanical Engineering (Subjects: Mathematics, Mechanics, Heat, Machine Drawing, and the City and Guilds of London Institute Examination in Aeronautical Engineering Practice Part I (Paper 171/1 1st Written, 171/2 2nd Written, 171/3 3rd Written)).
- (c) At the end of the third year—the Department of Education Senior Turning and Senior Workshop Technology and the Department of Education Advanced Stage Examinations in Mechanical Engineering (Subjects: Applied Mechanics, Heat Engines, Mathematics, Machine Construction and Design).
- (d) At the end of the fourth year—the

Department of Education Higher Technological Group Certificates in Mechanical Engineering (Subjects: Strength of Materials, Theory of Machines, Heat Engines, Mathematics, Machine Design) and the City and Guilds of London Institute Examination in Aeronautical Engineering Practice Part II (Paper 171/4 Sc.Calcs. and Drawing, Paper 171/5 Aero. Engineering Practice, 171/8 Power Plant Maintenance, Paper 171/9 Airframe Maintenance). Examinations of S.I.A.E.T. A.F.R.Ae.S. Part I. Fee £30 per annum.

**D/46A. Engineering Apprentices' Course**

This is a four-year industry-based Sandwich Course for Mechanical Engineering Apprentices who are released by their employers for 13 week blocks each year. The first and fourth years attend the College from January to March and the second and third years attend from September to December.

**Entrance Requirements**

- (a) Day Group Certificate of Department of Education with first class passes in Mathematics, Metalwork and Mechanical Drawing, or Secondary Schools Intermediate Certificate of Department of Education.
- (b) Applicants must be serving an apprenticeship to one of the Mechanical Engineering Trades.

**Course of Study****First Year**

Power House Practice, Engineering Workshop Practice, Applied Mechanics, Applied Heat and Heat Engines, Workshop

Technology, Engineering Drawing, Mathematics, Principles of Electricity, English, Social Science.

**Second Year**

Power House Practice, Engineering Workshop Practice, Applied Mechanics, Applied Heat and Heat Engines, Workshop Technology, Engineering Drawing, Mathematics, Principles of Electricity, English, Social Science.

**Third Year**

Power House Practice, Engineering Workshop Practice, Applied Mechanics, Applied Heat and Heat Engines, Workshop Technology, Engineering Drawing, Mathematics, Principles of Electricity, English, Social Science.

**Fourth Year**

Power House Practice, Engineering Workshop Practice, Applied Mechanics, Applied Heat and Heat Engines, Workshop Technology, Engineering Drawing, Mathematics, Principles of Electricity, English, Social Science.

**Examination and Other Requirements**

Students are expected to pass the Technological Certificate Examinations in Mechanical Engineering Elementary Stage at the end of the second year and Intermediate Stage at the end of the fourth year. At the end of the second and fourth years they are required to pass the Junior and Senior Stages of the Mechanical Engineering Trade Examinations of the Department of Education in Fitting and Turning. Fee £15 per annum.

**D/46B. Part-Time Day Course  
Engineering Apprentices**

This is a two-year part-time day course for engineering apprentices who are released by their employers for one day per week.

**Entrance Requirements**

Applicants must be serving an apprenticeship to one of the engineering trades.

**Course of Study****Both Years**

Mathematics, Mechanics, Heat, General Studies, Machine Drawing.

**Examination and Other Requirements**

Students are required to sit the Elementary Stage Technological Certificate examination of the Department of Education at the end of the first year. Successful students will then be promoted to Course D/42B. Selected students will be permitted to complete a second year to attempt the Elementary Stage Examination. All other students advance to their corresponding trade classes. Fee £5 per annum.

**D/47 Trainee Draughtsmen**

This is a two-year industry-based Sandwich Course for trainee draughtsmen who are released by their employers for 13 week blocks each year.

**Entrance Requirements**

- (a) Leaving Certificate Standard or Intermediate Mechanical Engineering Technological Certificate.
- (b) Applicants must be employed in industry as Mechanical Engineering Trainee Draughtsmen.

### Course of Study

#### First Year

Mathematics, Applied Mathematics, Heat and Heat Engines, Principles of Electricity, Workshop Technology, Engineering Drawing, Engineering Design, English and Report Writing, Religious Instruction, Physical Education, Power House Practice.

#### Second Year

Mathematics, Applied Mathematics, Heat and Heat Engines, Principles of Electricity, Workshop Technology, Engineering Drawing, Engineering Design, English and Report Writing, Religious Instruction, Physical Education, Power House Practice.

#### Examination and Other Requirements

Students are expected to pass the Advanced Stage Technological Certificate Examination of the Department of Education at the end of the second year.

Fee £15 per annum.

#### D/81. Printing Technology

This course is designed for those who wish to make a technological study of all branches of Printing and allied processes with a view to fitting themselves for managerial and supervisory posts. It is based on the syllabus of the Full Technological Certificate of the City and Guilds of London Institute and students are prepared for the Final and Full Technological examinations of that Institute.

Minimum qualifications for admission to course is the Senior Trade Certificate of the Department of Education in Compositors' Work or Letterpress Machine Work.

The course occupies three years and is based

on one day release per week (7 hours) and two evenings per week (5 hours) for the first two years and three evenings per week (6½ hours) for the third year.

The training in the above courses will be supplemented by:

(a) Visits to industry.

(b) Lectures by specialists on particular aspects of the industry.

Fee £10 per annum.

#### D/82. Training for Administrative Staff

The course is intended for those engaged in the Clerical and Administrative side of printing with a view to preparing them for higher administrative posts in the Industry.

Consequent on the expansion of the industry a definite need exists for the training of young men, already engaged in the Industry, to fit them for promotion to administrative posts. The course occupies three years; the first two are mainly concerned with Trade Techniques, Costing and Estimating, and the third year with Administrative studies.

To secure optimum results the numbers enrolled for the course will be limited to a maximum of twelve each year.

The age group for trainees is between 19 and 24 years, and the minimum educational qualification required is the Leaving Certificate.

Students at the end of the first year will be required to pass the Preliminary Technical Knowledge Examination of the British Federation of Master Printers.

A Diploma will be awarded to those who, having attended the full course, have passed

### Graphic Design

#### Heating and Ventilating Technicians' Course

the examination for all subjects.

The training in this course will be supplemented by:

(a) Visits to industry.

(b) Lectures by specialists on particular aspects of the industry.

Fee £15 per annum.

#### D/86. Graphic Design

This three-year course trains students as specialist Graphic Designers for entry into Design Groups, Advertising Agencies and Printing offices. It operates in conjunction with a course in the National College of Art. The course offers instruction not only in Design but in practical techniques of printing and graphic reproduction.

The student's work will be reproduced by the various printing processes operating at the school—letterpress, lithography, photo-lithography, silk-screen, all methods of typesetting and bookbinding.

Entry subject to Leaving Certificate standard or specimens of work indicative of promise.

Fee £10 per annum.

#### D/152 Heating and Ventilating Technicians' Course

This is a three-year part-time day course entailing attendance on one day per week. The course is intended for those who have satisfactorily completed Course D/151 and who aspire to be potential foremen.

#### Entrance Requirements

Applicants must have completed an apprenticeship in heating and ventilating craft practice, and should preferably have completed Course D/151.

### Examination Requirements

Students will be required to sit the examinations of the City and Guilds of London Institute for Heating and Ventilating Technicians—No. 181.

Fee £10 per annum.

#### D/170 City and Guilds of London Institute—Motor Vehicle Technicians' Work

This is a two-year part-time day and evening course arranged as an extension of the 168 and 169 courses and students prepare for the Full Technological Certificate in Automobile Engineering. Attendance at the College is required for one full day (7 hours) and two evenings (6 hours) per week.

#### Entrance Requirements

Students are required to have completed Course 168 or 169 and to have passed either the 168 or the 169 examination.

#### Course of Study

The subjects studied are as follows:

#### First Year

Garage Practice, Motor Workshop Practice, Heat Engines and Applied Mechanics, Motor Vehicle Technology Advanced, Mathematics.

#### Second year

Garage Practice, Motor Workshop Practice, Heat Engines and Applied Mechanics, Motor Vehicle Technology Advanced, Mathematics.

Fee £10 per annum.

#### Technological & Technician Courses (evening)

#### E/1A. Building Technology

A six-year course (including a preliminary year) to meet the needs of students who are employed or intend to be employed in a

technical capacity on the contracting side of the building industry. The course will prepare students for the examinations of the following bodies: The Institute of Builders (Intermediate and Final (Part 1) Examinations); The Institute of Clerks of Works in Ireland (Intermediate and Final Examinations); City and Guilds of London Institute (Building Technician's Certificate and Certificate Examinations in Builders' Quantities); The Department of Education (Certificate Examinations in Building Technology—elementary, intermediate and advanced stages). Associated Examining Board (G.C.E.—technical subjects).

#### Entrance Standard

Applicants must have a good standard of general or technical education. Students who have completed an approved course in a building trade or a Day Junior Technical Course will be exempted from the preliminary year. Students who have attained a suitable standard in draughtsmanship (e.g. Pass in Drawing, Leaving Certificate Examination) or Mathematics (e.g. Pass in Intermediate Certificate Examination) will be exempted in these subjects in the preliminary year.

Fee £10 per annum.

#### E/1B. Course for Building Technicians (Progressively supersedes Course in Building Technology, E/1A)

The course is of four years' duration with attendance on three evenings of each week and is designed to prepare students for the Advanced Technological Certificate examinations of the Department of Education

and the Construction Technicians' Certificate Examination of the City & Guilds of London Institute (which leads to Technician Membership of the Institute of Building).

#### Subjects

##### First Year

Building Science; Building Construction and Services; Building Calculations.

##### Second Year

Building Science; Building Construction and Services; Building Calculations; Safety Regulations.

##### Third Year

Building Construction and Services; Measurement and Price Build-up; Land Surveying and Setting Out.

##### Fourth Year

Building Construction and Services; Measurement and Price Build-up; Land Surveying and Setting Out.

#### Practical Experience

Students are required to be employed in the Building Industry.

#### Entry Qualifications

Full Technological Certificate in Building Crafts of the City and Guilds of London Institute.

Fee £10 per annum.

#### E/2. Land Surveying and Levelling

A two-year course to meet the needs of students who are employed in professional offices or on the contracting side of the industry. The courses consist of evening lectures and field work held on Saturday afternoons during late spring and early summer.

Optional classes in Mathematics and Draughtsmanship may be taken in conjunction with this course.

Fee £10 per annum.

#### E/3. Timber Technology

A three-year course to prepare students for the final examinations of the Institute of Wood Science.

Fee £10 per annum.

#### E/40. General Certificate of Education Courses

The following subjects are offered at ordinary level: English, Pure Mathematics, Additional Pure Mathematics, Physics, Chemistry, Geology, Technical Drawing and Surveying. The entrance standard to the above is Leaving Certificate or Department of Education Elementary Technological Certificate in Mechanical Engineering.

The following subjects are offered at advanced level: Pure Mathematics, Applied Mathematics, Physics and Technical Drawing. The entrance standard to the above is Leaving Certificate with Honours or G.C.E. Ordinary level passes in the appropriate subjects.

Fee per annum:

£7 10s. for four subjects.

£1 10s. for each additional subject.

#### E/41. Graduate Courses in Engineering

A 4/5-year course to prepare students for the examinations of the following Professional Engineering Institutions:

- (1) Inst. of Civil Eng. of Ireland.
- (2) Inst. of Civil Eng.
- (3) Inst. of Mechanical Eng.

- (4) Inst. of Production Eng.
- (5) Inst. of Structural Eng.
- (6) Inst. of Heating & Ventilating Eng.
- (7) Royal Aeronautical Society.

Before entry to these courses applicants must meet the requirements of the appropriate Institution for Student Membership.

Fee £10 per annum.

#### E/42. Certificate Engineering Technician Course

A 5/6-year course to prepare students for the Certificate examinations in Mechanical Engineering of the Department of Education as follows:

Set the end of the Second year—Elementary Stage.

Set the end of the Third year—Intermediate Stage.

Set the end of the Fourth year—Advanced Stage.

Set the end of the Fifth/Sixth year—Higher Technological Stage.

The entrance requirements are Department of Education Intermediate Certificate or Day Group Certificate with passes in Mathematics, English and a Science Subject.

Fee £10 per annum.

#### E/43. Engineering Draughtsmanship

This Course is for those who are receiving approved training as Engineering Draughtsmen and who have passed either (a) the Intermediate Stage of the Technological Certificate of the Department of Education in Machine Drawing, Mathematics and one other subject, or

Mechanical Engineering Technicians' Course  
Jig & Tool Design Technology Course  
Aeronautical Engineering Technicians  
Diesel Maintenance

Welding Technicians' Course  
Automobile Engineering Course

36

Printing Technology  
Training for Administrative Staff

Applied Printing  
Costing and Estimating (Printing)  
Paper Technology and Marketing

37

(b) the G.C.E. "O" Level in Mathematics, Drawing and one other subject.  
The Course consists of three sections—Mechanical, Civil, and Heating and Ventilating.  
Fee £10 per annum.

#### **E/44A. Mechanical Engineering Technicians' Course**

A four-year Course to prepare students with a mechanical engineering background for the Part I and Part II of the City & Guilds of London Institute examinations for Mechanical Engineering Technicians (293). Entrance requirement is the Mechanical Engineering Technological Certificate of the Department of Education, Elementary Stage.  
Fee £10 per annum.

#### **E/44B. Jig & Tool Design Technology Course**

A two-year Course for those who have completed Course E/44A or equivalent. Students are prepared for the Full Technological Certificate Examination of the City & Guilds of London in mechanical engineering (293).  
Fee £10 per annum.

#### **E/46. Aeronautical Engineering Technicians**

This course provides instruction for aircraft maintenance engineers who desire to take the Licence Examinations of the Department of Transport and Power.

Fee £10 per annum.

#### **E/47. Diesel Maintenance**

This is a two-year Course providing instruction in the theory and practice of diesel maintenance.

Fee £7 10s. 0d. per annum.

#### **E/48. Welding Technicians' Course**

This is a 2-year Course to prepare welding technicians for the Final Examinations of the City & Guilds of London Institute in Welding.

Fee £7 10s. 0d. per annum.

#### **E/49. Automobile Engineering Course**

This is a five-year evening course requiring attendance at the College for three evenings (9 hours) each week (26 weeks each year). The course prepares students for the Associate Membership Examinations of the Institute of the Motor Industry (Inc.), the Institute of Road Transport Engineers and the Institute of Automobile Assessors. Section A of the Associate Membership Examination of the above Institutes is taken at the end of the second year. At this stage students specialise and take relevant subjects to prepare themselves for the Section B examinations of the above Institutes and in addition students may prepare themselves for the I.M.I. "Pardic" Scheme Examinations. The Section B examinations are usually taken at the end of the fourth year and Section C examinations at the end of the fifth year.

#### **Entrance Requirements**

Secondary Leaving Certificate or equivalent certificate.

#### **Course of Study**

The subjects studied are as follows:

#### **First Year**

Electricity, Science and Mathematics, Engineering Drawing, Motor Engineering—Theory, Motor Engineering—Practice.

#### **Second Year**

Electricity, Science and Mathematics, Engineering Drawing, Motor Engineering—Theory, Motor Engineering—Practice.

#### **Third Year**

Motor Engineering—Theory, Motor Engineering—Practice, Management Practice including Method Study, Motor Trade Practice and Law, Workshop Organisation and Administration.  
or Parts Merchandising, Parts Department Administration and Organisation.

#### **Fourth Year**

Motor Engineering—Theory, Motor Engineering—Practice, Management Practice including Method Study, Motor Trade Practice and Law, Workshop Organisation and Administration,  
or Parts Merchandising, Parts Department Administration and Organisation.

#### **Fifth Year**

Management Practice including Method Study, Motor Trade Practice and Law, Workshop Organisation and Administration  
or Parts Department Administration and Organisation.

Fee £7 10s. 0d. per annum.

#### **E/81. Printing Technology**

This is a continuation of the Day Course in Printing Technology constituting the Third Year of the course.

Fee £7 10s. 0d. per annum.

#### **E/82. Training for Administrative Staff**

This course is a continuation of the Day Course for Administrative Staff.  
(See Course D/82.)

#### **E/83. Applied Printing**

A 2-year course designed to provide those engaged in the Clerical and Administrative side of Printing with a general knowledge of the crafts involved in modern printing and of the materials and appliances used. Students who complete the course may enter the Preliminary Technical Knowledge examination of the British Federation of Master Printers. A first class pass in this examination is one of the prerequisites for entry for administrative personnel for the City and Guilds of London Institute's scheme for advanced qualifications in Printing. It is also necessary to have passed the Preliminary Technical Knowledge examination to be accepted as a candidate for the following:

- (a) Training for Administrative Staff.
- (b) Estimating and Costing examination of the British Federation of Master Printers.

Fee £5 per annum.

#### **E/84. Costing and Estimating (Printing)**

A 3-year course designed to prepare students for the examinations of the British Federation of Master Printers.

Fee £10 per annum.

One part only £5; either part taken as an additional subject to Course E/83, E/85 or E/86 £3.

#### **E/85. Paper Technology and Marketing**

A 2-year course for employees of Paper Mills and Paper Merchants' and Printers' employees engaged in the handling of paper transactions. Students are prepared

for the examinations of the National Association of Paper Merchants and the City and Guilds of London Institute.  
Fee £5 per annum.

**E/86. Typographic Design and Layout Course A**—This course shall normally occupy four years and may be taken by means of either day or evening classes. Its aim is to prepare compositor students for the examinations of the Department of Education and the City and Guilds of London Institute.

**Course B**—A two-year course for students of Art and those engaged in publishing houses, design studios, advertising agencies and printing houses. Students will be expected to have at least an elementary knowledge of Typography and are consequently advised to take the Applied Printing course as well.  
Fee £5 per annum.

**E/89. Basic Diploma Course in Advertising**  
The part of the above course of the College of Commerce, Rathmines, dealing with Printing and Reproduction methods, is now being taken in the School of Printing.

**E/90. Diploma Course in Advertising**  
The subjects: Printing and Reproduction Methods, Copywriting, Design and Layout of the above course are now being taken in the School of Printing.

#### Trade Courses

These courses are for apprentices and young journeymen in the Building, Vehicle Building, Furniture, Engineering and Printing, Bookbinding and Process Engraving Trades.

Every facility is given to students who wish to enter for the Trade Certificate Examinations of the Department of Education or of the City and Guilds of London Institute. These examinations are conducted in the College at the end of the session. The courses are based on the examination syllabuses of these bodies. Generally, students take the Junior Stage of the Trade Certificate Examinations of the Department of Education after two years' instruction and the Senior Stage after a further two years.

#### Trade Courses (Day)

Fee £5 per annum except where otherwise stated.

#### Building Trades

Part-time courses involving one-day instruction per week in the practice and theory of the trade. These are normally of 4 years' duration (5 years in the case of Carpentry and Joinery, and Vehicle Building). Woodcutting machinists, on completion of the second year course, transfer to the third year of the evening course. The following courses are provided:  
D/101. Bricklaying.  
D/102. Furniture Trades.  
D/103. Carpentry and Joinery.  
D/104. Coach painting.  
D/105. Painting and Decorating.  
D/106. Plumbing.  
D/107. Vehicle Building.  
D/108. Woodcutting Machinists' Work.  
D/109. Vehicle Trimming.

#### Engineering Trades

Fitting + Turning  
Motor Mechanic Apprentices  
Motor Mechanic Apprentices  
Gas and Electric Welding  
Metal Plate Work  
Heating + Ventilating Engineering Craft Practice  
Motor Vehicle Mechanics' Work

#### Engineering Trades

##### D/141. Fitting + Turning

A four-year Course, one day per week, for apprentices who have completed the first year of Course D/46B.

##### D/142A. Motor Mechanic Apprentices

A five-year Day and Evening Course requiring attendance for one full day (7 hours) and two evenings (6 hours) per week.

##### D/142B. Motor Mechanic Apprentices

A five-year Course requiring attendance for one half-day (3 hours) and at least two evenings (6 hours) per week. By taking extra classes in specified subjects students may prepare themselves for the Motor Engineering Technological Certificate Examinations of the Department of Education.

##### D/143. Gas + Electric Welding

A five-year Course requiring attendance on one day per week. This Course meets the requirements of the Irish Welding Association qualification tests for Welders.

##### D/149 Metal Plate Work

A four-year Course, requiring attendance on one day per week, for apprentices who have completed the first year of Course D/46B.

##### D/151. Heating + Ventilating Engineering Craft Practice

A four-year Course requiring attendance on one day per week.

##### D/168. Motor Vehicle Mechanics' Work (City & Guilds of London Inst.)

A three-year Course requiring attendance on one day (7 hours) and at least 2

evenings (6 hours) per week. Students take the City and Guilds of London Institute Motor Mechanics' Work Examination at the end of the third year.

##### D/169. Motor Vehicle Electricians' Work (City & Guilds of London Inst.)

A three-year Course requiring attendance on one day (7 hours) and at least 2 evenings per week. The first year of the Course is the same as Course D/168. At the end of the third year, students take the City and Guilds Motor Vehicle Electricians' examination.

#### Printing Trades

##### D/181. Bookbinding

A Block Release course for first, second, third and fourth year apprentices, involving day and evening instruction in the practice and theory of the trade. Students are prepared for the examinations of the City and Guilds of London Institute.

##### D/182. Compositors' Work

A 2-year part-time course for first and second year apprentices, involving day instruction (17½ hours per week) in the theory and practice of the trade and evening instruction (two evenings) in Irish and English. Students are prepared for the Junior Trade Certificate Examinations of the Department of Education. On completion of the course students attend classes for Senior Stage Examinations in Compositors' Work of the Department of Education.

##### D/183. Letterpress Machine Work

A 2-year part-time course, similar in arrangements to the course in Compositors' Work.

**D/184. Process Engraving**

A 4-year part-time course, comprising Junior and Senior stages.

**D/185. Linotype, Intertype and Teletypesetting**

Course A—A complete course of 12 weeks' duration of 30 hours per week.

Course B—A refresher course for operators of 6 weeks' duration for 30 hours per week.

Fee £15 per annum.

**D/188. Stereotyping and Electrotyping**

A 4-year part-time course for first, second, third and fourth year apprentices of 4½ hours day instruction.

**D/190. Compositors' Work (Block Release Courses)**

Consecutive courses of 13 weeks' duration for first and second year apprentices and courses of 6 weeks' duration for third and fourth year apprentices. During each course the apprentices attending complete a stage of the Department of Education's syllabi for the Junior and Senior Trade Certificate Examinations in Compositors' Work. An examination in each stage is set by the Department of Education at the conclusion of each course.

**D/191. Bookbinding and Warehouse Work (Block Release Courses)**

Consecutive courses of 13 weeks' duration for first and second year apprentices and courses of six weeks' duration for third and fourth year apprentices. At present students are prepared for the examinations of the City and Guilds of London Institute.

**D/192. Lithography and Photo-Lithography (Block Release Courses)**

Dublin Apprentices: Consecutive courses of 19 weeks' duration for first and second year apprentices and evening courses of instruction for third and fourth year apprentices.

Provincial Apprentices: Block Release Courses similar in arrangement to that for Compositors' Work and Bookbinding and Warehouse Work.

**Trade Courses (Evening)**

Fee £4 10s. 0d. per annum.

Evening Courses for apprentices are provided for all courses listed in the preceding pages, and in Plastering, Patternmaking, Foundry Work, Brassfinishing, Boilermaking, Smith and Art Ironwork, Structural Steelwork, Monotype Casting and Monotype Keyboard. Students are prepared for appropriate examinations conducted by the Department of Education and the City & Guilds of London Institute.

**Physical Education**

Evening courses in Physical Education are provided for men students. Classes in Physical Education are provided as components of the whole-time day courses. Athletic and sporting activities for whole-time students are organised by the several student bodies in the College with the guidance of a physical education expert. Sports fields are provided for the purpose at Terenure and Whitehall.

Fee £4 per annum

**Examinations**

At the end of each session internal examinations are held in connection with

the courses. Promotion of students depends on success in these examinations. Students who have not the required attendances at the courses will not be permitted to take these examinations. Students are required to acquaint themselves with the examination and promotion regulations of the course which they take.

**External Examinations**

The courses prepare students for the Examinations of the following bodies :

**1. Department of Education**

(a) Technological Certificate Examinations in:

- (i) Building.
- (ii) Mechanical Engineering.
- (iii) Motor Car Engineering.
- (iv) Mathematics.

(b) Trade Certificate Examinations in:

- (i) Bricklaying and Masonry.
- (ii) Boilermakers' Work.
- (iii) Brass Finishing.
- (iv) Cabinetmaking.
- (v) Carpentry and Joinery.
- (vi) Compositors' Work.
- (vii) Letterpress Machine Work.
- (viii) Metalplate Work.
- (ix) Motor Car Engineering.
- (x) Painting and Decorating.
- (xi) Plasterers' Work.
- (xii) Plumbing.
- (xiii) Fitters' Work.
- (xiv) Turners' Work.

**2. Professional Institutions**

- (i) Building Surveyors' Institute.
- (ii) Institution of Civil Engineers of Ireland.
- (iii) Institution of Civil Engineers.
- (iv) Institution of Heating, Ventilating and Air Conditioning Engineers.
- (v) Institution of Mechanical Engineers.
- (vi) Institution of Municipal Engineers.
- (vii) Institution of Structural Engineers.
- (viii) The Institute of Building.
- (ix) Institute of Marine Engineers.
- (x) Institute of Quantity Surveyors.
- (xi) Royal Aeronautical Society.
- (xii) Royal Institute of Architects of Ireland.
- (xiii) Royal Institution of Chartered Surveyors.
- (xiv) Town Planning Institute.

**3. Other Bodies**

- (i) Board of Trade (Certification for Marine Engineers).
- (ii) British Federation of Master Printers.
- (iii) City and Guilds of London Institute.
- (iv) Department of Industry and Commerce (Licence in Aeronautical Engineering).
- (v) Institute of Clerks of Works in Ireland.
- (vi) Institute of the Motor Industry.
- (vii) National Association of Paper Merchants.
- (viii) Associated Examining Board (G.C.E.).

**Note**

In connection with the examinations of professional and other external bodies, students are advised to note the following:  
1. Admission to a course in the College may not of itself entitle students to sit for examinations of external bodies. Students

are themselves responsible for ensuring that they satisfy all the requirements of the examining body concerned.

2. Students are expected to acquaint themselves with the current regulations for the examinations which they propose to take.
3. Students must make all the necessary applications and provide all documents that may be required. In this connection any documents and certification (e.g. statements of attendance, etc.) required from the College authorities should be applied for at the earliest opportunity.
4. The College Authorities will give the fullest assistance and advice in the above matters.
